A. Course Description

Credits: 4

Prerequisites: NURS 309 Holistic Nursing Care of the Adult I AND NURS 413P Integrative Practicum I

Lab Hours/ Weeks: Corequisites: None

Lecture Hours/ Week :

MnTC Goals: None

This course focuses on the holistic nursing care of maternal, newborn, pediatric, geriatric, and mental health populations. Emphasis will be placed on the utilization of the principles of holistic and evidence based practice through the examination of selected alterations in health. Students will also examine principles of health promotion in diverse populations.

B. Course Effective Dates: 01/11/2011 - Present

C. Outline of Major Content Areas:

See Course Description for major content areas.

D. Learning Outcomes (General)

1. Apply Modeling and Role Modeling theory to case-focused alterations in health of maternal, newborn, pediatric, geriatric, and mental health clients.
2. Apply professional standards and the principles of evidence-based practice in planning for the holistic nursing care of families and clients in the maternal, newborn, pediatric, geriatric, and mental health areas.
3. Evaluate the concepts of health and illness to maternal, newborn, pediatric, geriatric, and mental health clients utilizing a holistic, cross-cultural, person centered worldview.
4. Explain the underlying pathophysiology, clinical presentation, nursing assessments, and interventions for selected alterations in health.

E. Learning Outcomes (MN Transfer Curriculum)

This contains no goal areas.
