This course will examine the tension between the private life and public controversies about sexual expression and identity in modern U.S. history. Students will consider the preconditions that gave rise to collective behavior calling for increased regulation of private life as well as examine when, why, and how groups organized to reclaim individual rights to free expression. Consequently, this course is organized around the following sources of public debate about sexuality over time: reproduction and reproductive freedom; patterns of sexual behavior within and outside of the family; consumer culture and mass media; and the formulation of sexual identities.
