Martin Luther King, Jr. once said, "If America's soul becomes totally poisoned, part of the autopsy must read 'Vietnam'." The American military experience in Southeast Asia, during the height of the cold war, was traumatic for many Americans, including many who did not share King's antiwar views. Years later, the Vietnam War remains a specter haunting American politics and culture. This course considers how the war came about, why it took the direction it did, what the alternatives were, how Americans have viewed the war since the 1960s and why it continues to matter so much to so many.
