A. Course Description

Credits: 4

Prerequisites: PSYC 100 General Psychology or equivalent with instructor's consent.

Lab Hours/ Weeks: Corequisites: None

Lecture Hours/ Week :

MnTC Goals: Goal LS - Upper Division Liberal Studies, Goal 05 - Hist/Soc/Behav Sci

This course reviews current information on the clinical use of psychoactive medication. The course focuses on standard clinical psychopharmacology, applications of psychoactive medication, and relative merits of medication vs. psychotherapy rather than on illicit drugs. This course examines several classes of therapeutic drugs, such as neuroleptics, antidepressants, tranquilizers and hypnotics, their mechanisms of action and side effects, and research/experimental issues.

B. Course Effective Dates: 08/01/1998 - 09/05/1999 09/06/1999 - Present

C. Outline of Major Content Areas:

See Course Description for major content areas.

D. Learning Outcomes (General)

1. Apply knowledge to evaluation of topics such as abuses and side effects of drug use, and how the brain is involved in drug effects.
2. Evaluate societal issues as they relate to drugs and behavior.
3. Learn a basic and advanced level of knowledge in psychopharmacology.
4. Learn the methodologies used to study psychopharmacology.
5. Understand the historical and contemporary perspectives related to drugs and behavior.

E. Learning Outcomes (MN Transfer Curriculum)

Goal LS - Upper Division Liberal Studies
None

Goal 05 - Hist/Soc/Behav Sci
1. Employ the methods and data that historians and social and behavioral scientists use to investigate the human condition.
2. Develop and communicate alternative explanations or solutions for contemporary social issues.
3. Examine social institutions and processes across a range of historical periods and cultures.
