This course takes "current events" out of the headlines and into the realm of history. We examine controversies and developments that have marked American political and social life since 1980. Issues such as Ronald Reagan's election, economic policy, abortion, affirmative action, welfare, "political correctness," the Iran-Contra scandal and the Iraq and Afghanistan Wars are considered. The class brings the perspective of history to bear on Reagan's presidency, the power of the conservative movement and the opposition to that movement.
