A. Course Description

Credits: 4

Prerequisites: PSYC 308 Child Psychology or equivalent with instructor's consent.

Lab Hours/ Weeks: Corequisites: None

Lecture Hours/ Week :

MnTC Goals: None

This course provides students with foundational knowledge of the development of the communication skills in young children from birth through age eight. Topics include: hearing and speaking, speech and language development, vision and visual motor skills, and emergent literacy and small motor skills development. The process of learning more than one language is addressed as well as strategies for working with children for whom English is not the first language. The application of knowledge in the areas of assessment, individualization and referral are addressed and practiced.

B. Course Effective Dates: 08/24/2002 - Present

C. Outline of Major Content Areas:
