This independent study, designed for students with a background in women's history or women's studies, examines from an interdisciplinary perspective a variety of women's movements in the United States. It considers how women's movements have been influenced by and have influenced major social, political, and economic developments in the United States. Students use theoretical explanations of collective behavior, social movements and identity politics to analyze why social movements for women's rights have occurred during particular periods in U.S. history.
