A. Course Description

Credits: 5
Prerequisites: SSCI 300 Seeing Like a Social Scientist AND SSCI 311 Research Methods in Social Science AND SSCI 501 Great Ideas: Classics of Social Science AND WRIT 231 Writing II
Lab Hours/ Weeks: Corequisites: None
Lecture Hours/ Week :
MnTC Goals: None

Social scientists investigate the patterns of human interactions and then seek to interpret, explain and communicate human behavior. This seminar is designed to provide a final, integrating experience for students with a social science major. Seminar participants complete a senior project that demonstrates an ability to design a study, collect new or existing data, analyze those findings and communicate the results.

B. Course Effective Dates: 05/08/2019 - Present

C. Outline of Major Content Areas:

See Course Description for major content areas.

D. Learning Outcomes (General)

1. Ability to design a study, to collect new or existing data, to analyze the findings, and to communicate the results of the inquiry at an upper division college level.
2. Ability to write analytically in a style that is well informed, well reasoned, and literate at an upper division college level.
3. Demonstrates oral communication skills by informed and well-reasoned arguments.
4. Masters the higher order thinking skills necessary to analyze and interpret social science literature at an upper division college level.
