A. Course Description

Credits:

Lab Hours/ Weeks: Corequisites: None

Lecture Hours/ Week :

MnTC Goals: None

This independent study is designed for transfer students whose course or courses from another college or university fulfills some but not all of the requirements of a Metropolitan State undergraduate nursing course. The student and faculty evaluator negotiate the number of credits to be completed and the specific course objectives and requirements to be satisfied. Through guided study, the student completes these requirements. ** Note: this is a variable credit course with credit range of 1 - 6.

B. Course Effective Dates: 08/01/1998 - 09/05/1999 09/06/1999 - Present

C. Outline of Major Content Areas:

See Course Description for major content areas.

D. Learning Outcomes (General)

1. Apply research findings from nursing and public health in assessing, planning, implementing and evaluating population-based care.
2. Deliver public health nursing interventions to selected client aggregates that are culturally congruent with client expectation and preferences.
3. Demonstrate communication skills that evidence unconditional acceptance, nurturance, support and facilitation when delivering nursing interventions to systems, communities, and individuals and families.
4. Demonstrate ethical, legal, and professional accountability in public health and community nursing practice.

E. Learning Outcomes (MN Transfer Curriculum)

This contains no goal areas.

G. Special Information

None
