A. Course Description

Credits:

Lab Hours/ Weeks: Corequisites: None

Lecture Hours/ Week :

MnTC Goals: None

This foundational course provides students with practical knowledge needed to conduct research in organizations. Major topics covered include research design, data collection and analyses, research proposal and research report. Students will gain practical experience by applying the procedures and techniques learned in this class to organizational functions, such as marketing, finance, management, and operations. This course must be taken during the first semester of MBA studies. ** Note: this is a variable credit course with credit range of 2 - 4.
