A. Course Description

Credits: 3

Lab Hours/ Weeks: Corequisites: None

Lecture Hours/ Week :

MnTC Goals: None

This course focuses on the elements of nursing science and their interrelationships. Theories, philosophies and models that inform evidence-based nursing practice and their application to research and practice are systematically examined. Selected nursing theories are analyzed and critiqued, including their relevance to diverse client populations. The nursing metaparadigm is examined, with students reflecting on their own professional beliefs and values. Competence Statement: Knows concepts well enough to analyze and evaluate the underlying structures and elements of select nursing philosophies, models and theories, and comprehend the appropriate application of such to nursing practice.

B. Course Effective Dates: 08/24/2002 - 08/18/2018 08/19/2018 - Present

C. Outline of Major Content Areas:
