A. Course Description

Credits: 3

Prerequisites: NURS 325 Health Assessment AND NURS 405 Essential Concepts of Pharmacology III AND NURS 410 Applied Pathophysiology AND NURS 600P Intensive Practicum II

Lab Hours/ Weeks: Corequisites: None

Lecture Hours/ Week :

MnTC Goals: None

This course focuses on synthesis of principles and content in pathophysiology, pharmacology and health assessment in the analysis of health issues in nursing practice. Students demonstrate clinical reasoning that builds upon previous coursework in pathophysiology, pharmacology and health assessment.

B. Course Effective Dates: 01/01/2018 - Present

C. Outline of Major Content Areas:

See Course Description for major content areas.

D. Learning Outcomes (General)

1. Building on previous coursework and based on clinical presentation, by the end of the semester the student will:
   Demonstrate a comprehensive holistic health assessment, and appropriate focused assessment based on clinical presentations.
2. Interpret the comprehensive holistic assessment data while considering underlying pathophysiology.
4. Create an appropriate plan of care that includes independent and collaborative holistic nursing interventions.
5. Use principles of pharmaco-therapeutics to safely implement pharmacologic interventions.

E. Learning Outcomes (MN Transfer Curriculum)

This contains no goal areas.

G. Special Information

Prerequisite: Admission to the Entry Level MSN program; NURS 325; NURS 410; NURS 405; NURS 600P.
