A. Course Description

Credits: 2

Prerequisites: MIS 600 Management Information Systems

Lab Hours/ Weeks: Corequisites: None

Lecture Hours/ Week :

MnTC Goals: None

This course explores current issues related to telecommunications technologies and how they can be used to facilitate information access and dissemination at all levels of an organization and through the Internet. Trends of telecommunications services are analyzed. Telecommunications trends in the United States and Europe are examined. A range of emerging telecommunications services is explored as well as how such services alter the ways that organizations gather information for decision making and manage these new environments. This course is targeted at students who are working business managers with a need to understand the impact of the new and emerging telecommunications services and how they can be harnessed to add value to business operations.
