A. Course Description

Credits: 4

Lab Hours/ Weeks: Corequisites: None

Lecture Hours/ Week :

MnTC Goals: None

This course explores the range of available telecommunications technologies and how they can be used to facilitate information-access and dissemination at all levels of an organization. Trends in standardization of telecommunications services are analyzed. In addition, students examine how the management information systems or data processing manager can use these services to generate accurate MIS reports in a cost-effective manner. Telecommunications trends in the United States and Europe are addressed in detail. A range of emerging telecommunications services is explored as well as how such services radically alter the ways that organizations gather information for decision making.

B. Course Effective Dates: 08/24/2002 - Present

C. Outline of Major Content Areas:

See Course Description for major content areas.

D. Learning Outcomes (General)

None

E. Learning Outcomes (MN Transfer Curriculum)

This contains no goal areas.

G. Special Information

None
