A. Course Description

Credits: 3

Lab Hours/ Weeks: Corequisites: None

Lecture Hours/ Week :

MnTC Goals: None

This course provides an introduction to the foundational concepts that influence or support nursing education. Students explore the social, economic, or institutional forces that influence nursing and higher education, including concepts. Students study teaching and learning theories, including theories about learning styles, and examine how these theories may be applied to a diverse population of nursing students. Students explore the status and utility of evidence-based teaching strategies for nursing education.

B. Course Effective Dates: 08/22/2009 - Present

C. Outline of Major Content Areas:

See Course Description for major content areas.

D. Learning Outcomes (General)
