Prerequisites: NURS 682 Curriculum Design and Evaluation AND NURS 683 Foundations in Program Evaluation for Nursing Education

Lab Hours/ Weeks: Corequisites: None

Lecture Hours/ Week :

MnTC Goals: None

The course provides learners the opportunity to explore and implement a variety of teaching/learning strategies to meet the needs of diverse student groups in nursing education. Students apply and modify teaching strategies based on educational theories and evidence-based educational practices that were learned in NURS 682: Curriculum Design and NURS 683: Assessment and Evaluation in Nursing Education. This course is designed to provide students with experiential learning opportunities focused on planning, application, modification, and evaluation of contemporary student-centered instructional methods. Problem-based learning, distance education, and other evidence-based approaches to learning are reviewed. Course content continues to build nurse educator knowledge and competencies identified by the National League for Nursing. This course is foundational for the practicum course.
