MIS 683 : Process Analysis and Design

A. Course Description

Credits: 2
Prerequisites: MIS 600 Management Information Systems
Lab Hours/ Weeks: Corequisites: None
Lecture Hours/ Week :
MnTC Goals: None

This course was created to give students a thorough look at the discipline of process analysis and design, workflow analysis and process reengineering. It uses a highly visual approach to both designing and communicating process analysis. Students will learn to properly analyze, design and build the main visualizations for process analysis including flowcharts, data flow diagrams, entity relationship diagrams and others as tools for communicating management designs.

B. Course Effective Dates: 08/24/2002 - 08/15/2017 08/16/2017 - Present

C. Outline of Major Content Areas:

See Course Description for major content areas.

D. Learning Outcomes (General)

None

E. Learning Outcomes (MN Transfer Curriculum)

This contains no goal areas.

G. Special Information

None
