Course Description: This is the fifth in a series of six clinical practicum courses. In this practicum, students combine advanced didactic knowledge and psychomotor skills in assessment, planning, and implementation/delivery of perioperative anesthesia care under occasional supervised monitoring and mentoring by licensed/certified anesthesia providers in MSA member hospitals throughout the Twin Cities. Students complete a minimum of 240 hours of supervised practicum as a student nurse anesthetist.

Competence Statement: Knows the principles and practice of nurse anesthesia care well enough to assess, plan, and implement an anesthetic care plan, at an advanced level, under occasional supervision of a licensed/certified anesthesia provider.

B. Course Effective Dates: 05/11/2019 - Present

C. Outline of Major Content Areas:

See Course Description for major content areas.

D. Learning Outcomes (General)

1. Conduct a complete preanesthetic assessment independently.
2. Formulate and carry out an anesthesia care plan independently.
3. Complete a room set-up for an anesthetic case independently.
4. Maintain a complete medical record for an anesthetic case.
5. Conduct the process of an anesthetic induction independently.
6. Conduct the process of anesthetic management independently.
7. Conduct the process of anesthetic emergence independently.
8. Conduct post-anesthesia care handoff to recovery room personnel independently.
9. Demonstrate professional and personal responsibility in all clinical interactions.
10. Follow universal precautions in all patient contact.

E. Learning Outcomes (MN Transfer Curriculum)

This contains no goal areas.

G. Special Information

Prerequisites: Prior to taking this course, you must have successfully completed the following courses or have instructor consent: NURS 689P. Note: Clinical dates and time will be coordinated with the students and the individual clinical coordinators at member hospitals.
