A. Course Description

Credits:

Lab Hours/ Weeks: Corequisites: None

Lecture Hours/ Week :

MnTC Goals: None

This independent study course is designed for oral health practitioner students and focuses on continuing development of laboratory and/or clinical skills. The student and faculty member negotiate the number of credits to be completed and the specific course outcomes and requirements to be satisfied. Through guided study the student completes these requirements. This course may be repeated. Credits do not substitute for required course work. Register by permission only. ** Note: this is a variable credit course with credit range of .5 - 8.

B. Course Effective Dates: 08/22/2009 - Present

C. Outline of Major Content Areas:

See Course Description for major content areas.

D. Learning Outcomes (General)

1. Demonstrates competency in selected skills in laboratory and/or clinical setting.
2. Student will contract with the instructor to complete the appropriate number of experiences or laboratory or clinical hours or other requirements during the time of enrollment. The course outcome(s) and course assignments will be negotiated between the student and the instructor.
