MnTC Goals: None

This course focuses on practicum which includes enhancement of history taking and physical examination skills in addition to introduction of new pediatric concepts. Curriculum focuses on the advancement of clinical reasoning through case study examination, documentation review, and discussion with a pediatric focus. Students integrate knowledge of growth and development, family, culture, holism, community, and caring as they plan holistic care for clients in clinical settings. Issues that arise from the clinical setting regarding advanced practice nursing roles will be addressed. This practicum includes a minimum of 150 clinical hours with approved preceptor(s) with an emphasis in pediatrics. Competence Statement: Knows select acute and chronic concepts well enough to provide pediatric care in the clinical setting in collaboration with a clinical preceptor.
